ABDUL RAFAY

(Full Stack MERN Developer)

abdul.rafay9714@gmail.com | (+92) 3265605724

@abdul-rafay /Abdul Rafay

ABOUT ME

I am a very dynamic and focused Full Stack Developer with good team spirit, co-ordination skills, problem solver. I am most look forward to work with the organization to enhance my technical knowledge and skills in building dynamic and scalable web applications, in-circle of positive workspace. I strive to work in collaboration with my team, ensure innovative practices and processes that benefit the organization, while also eager to learn and grow on the latest technologies to bring value for results. My expertise lies in creativity, technical excellence, and proactive attitude that help me to learn and grow while helping others as well.

SKILLS

- **Programming Languages:** (C++, JavaScript (ES6+), Python)
- **Frontend:** (HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS)
- **Backend:** (Node.js, Express.js, RESTful APIs, JWT Authentication)
- **Databases:** (MongoDB, MySQL, PostgreSql)
- **Tools & Others**: (Git & GitHub, Postman, VS Code, npm, JSON)
- **Concepts:** MVC Architecture, API Integration, Authentication & Authorization, Responsive Design

EDUCATION

- BSCS | Arid Agriculture University Rawalpindi *CGPA: 3.84 | (present)*
- F.sc | Punjab Group of college Gujar khan *A+| 2022*
- Matric | Dar-e-Arqam school Gujar Khan *A+| 2020*

EXPERIENCE

- **Fullstack Developer | peopleperhour**
  (Present)

- Developed and deployed full-stack web applications using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** for international clients..

- Built responsive user interfaces and integrated **RESTful APIs with secure JWT authentication** to deliver scalable web solutions.

- **Web Developer | Softezm** *(Aug 2025 - Nov 2025)*

- Developed responsive frontend interfaces using **React.js and Tailwind CSS** to improve user experience.

- Collaborated with backend developers to integrate APIs and maintain code using **Git and GitHub**.

- **Frontend Developer | Crypstac (Internship)** (Jul 2025 – Sep 2025)
- Developed full-stack features using the **MERN stack**, including React frontend and Node.js/Express backend.
- Integrated **MongoDB databases and REST APIs** to build dynamic and scalable web application components.

ACADEMIC PROJECTS

- **University Website**

A responsive university landing page built with **HTML**, **CSS**, and **JavaScript**, featuring sections like courses, campus life, and testimonials. Includes smooth navigation, dynamic UI elements, and optimized layout for all screen sizes.

https://arafay044.github.io/university-site/

- **Car Rental Website**

A responsive car rental web application that allows users to view available vehicles and rental services. Built with **PHP** and **MySQL** for dynamic content management, and **HTML**, **CSS**, **JavaScript** for a smooth frontend experience.

https://github.com/arafay044/carrental-web-project

- **E-commerce website**

A fully responsive e-commerce website frontend built using **HTML**, **CSS**, and **JavaScript**. It showcases products, categories, and promotional banners with a modern layout and interactive UI.

https://arafay044.github.io/ecommerce-site/

- **QuickChat - Chatapp**

Developed a real-time chat application using the MERN stack and Socket.IO, featuring instant messaging, online status, and typing indicators.Implemented JWT-based authentication, scalable RESTful APIs, and WebSocket-based communication to ensure secure, low-latency interactions for multiple concurrent users.

https://chatapp-mu-blue.vercel.app/login

- **Blogify**

Developed a full-stack blogging platform using the MERN stack with secure user authentication, enabling users to create, edit, and delete rich-text posts. Implemented dynamic routing, pagination, and a fully responsive UI for an optimized reading and writing experience across devices.
